Claims 1-12, 15-18, 21-29 and 31-34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The drawing Figures indicated by applicant in the response of February 2, 2003 as being directed to the elected species I do not show structure in sufficient detail to indicate how the oval pins are turned to bind in the substrate holes. The specification relating to said Figures offers no specific support either. Thus the elected claims cannot be further examiner on their merits.

Applicant's arguments filed December 8, 2003 have been fully considered but they are not persuasive. Applicant argues that instant Figure 11 clearly shows a rack and pinion arrangement for moving the oval pins. The examiner agrees. However, in applicant's response of February 3, 2003 he indicates that Figure 11 is part of nonelected species II. Thus applicant has not shown how the Figures or specification directed to elected species I overcome the 35 USC 112, first paragraph rejection above.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
